TagPrint^{PRO} 4.0

Streamline Productivity and Reduce Operator Errors with the Complete Label Management Solution from HellermannTyton

Get more done in a fraction of the time with HellermannTyton's feature-rich labeling design software, TagPrint[®] Pro 4.0. There's nothing more powerful, especially when paired with our high-quality thermal transfer, laser and inkjet printable labels, and our complete line of desktop thermal transfer printers.

From Full Custom to Hands-Off Label Creation

TagPrint Pro 4.0 puts a powerful yet easy-to-use interface at your fingertips. Get going fast with pre-saved designs of the most common safety and solar labels. Or, build your label from a template or from scratch using intuitive design tools that manipulate bar codes, text and graphics with ease.

Store your label designs and find them again quickly with the help of live design preview. Need to move faster? TagPrint Pro's impressive, built-in print automation capabilities will run entire batches of labels with one wave of a bar code scanner.

Produce professional labels on the shop floor or at a remote jobsite. TagPrint Pro 4.0 allows you the freedom to identify cables, tubes, components, panels and more – and do so efficiently.

Compatible with Windows[®] 7, 8.1 and 10, TagPrint Pro 4.0 operates seamlessly in most production environments.

Familiar Windows-based Navigation

TagPrint® Pro 4.0's interface offers quick and easy access to the controls. Tabs are organized by activity, such as "Label," "Table" and "Print."

At-a-glance Interface

User can view object properties, data and actual label layout at the same time.

Pre-saved Designs

Software comes preloaded with commonly used, code-compliant safety and solar label designs and icons.

Expanded Import Capabilities and "Live Sync"

TagPrint Pro has a wide range of data import capabilities, including XMT, CSV and ODBC, which will refresh automatically, or in the case of Excel, just open directly in the program.

Built-in Security

Lockout or password protect label designs and data tables from unauthorized label editing.

Visual File Preview

When searching through label designs in the File | Open window, you can see each file displayed as it actually looks when printed as opposed to seeing just the file name.

"Pin" Favorites

Create shortcuts to frequently used label designs and data tables, making them immediately available in the file menu.

Single-user License or Network Version Available

TagPrint Pro 4.0 is available for single users or network installations to share printers, label designs and data tables from multiple workstations at one location.

Game-Changing Print Automation

Print automation unleashes your productivity, saving you time and virtually eliminating costly operator errors.

- Save frequently used labels individually or as a group under a single file name or job number.
- No need to search for and open files individually – simply enter the job number or scan a bar code on the work order for instant printing.
- Batch print to one or more printers at the same time – no waiting for one file to print before the next one begins.
- Store all print quantities, multiple printer destinations, data instructions and more within the file – no need for the operator to enter any information and make potential mistakes.
- Add optional user prompts to customize quantities, control numbers and more.

TT130SMC Thermal Transfer Printers

HellermannTyton's TT130SMC thermal transfer printer is designed with portability in mind, making it ideal for transporting to work sites.

Features and Benefits

- Compact, lightweight design saves space and is easy to transport.
- Integrated cutter cuts continuous media to any length.
- Optional caddy holds larger label stock reels to allow higher capacity printing.
- Designed to work with TagPrint® Pro label design software for ultimate label printing capabilities.

TT130SMC Printer with cutter, 556-00250

TT230SMC Series Thermal Transfer Printers

HellermannTyton's TT230SM Series thermal transfer printers deliver high speed and precision not found in many other small desktop printers.

Features and Benefits

- Designed for low- to medium-volume printing of thermal transfer labels and ShrinkTrak.
- LCD user interface for easier setup, diagnostics and adjustments.
- 300 dpi print head for high-resolution printing.
- Label holder included for convenient loading of any size media.
- Small footprint for easy transport to jobsites or around the shop.
- Ethernet ready for wireless network connectivity.
- Print speeds up to 3 in (76.2mm) per second for fast label production.
- 2 MB flash/8 MB DRAM for accepting large label files that require a lot of data.

TT230SM Standard printer, 556-00230

TTM430 / TTM460 Series Thermal Transfer Printers

HellermannTyton's TTM430 and TTM460 Series thermal transfer printers feature a streamlined touch screen and rapid printing.

Features and Benefits

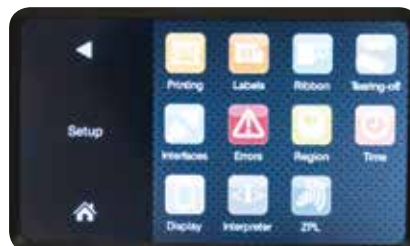

- Designed for medium- to high-volume printing of thermal transfer labels and ShrinkTrak.
- Touch LCD with visual prompts for easier operation.
- 300 dpi (TTM430) and 600 dpi (TTM460) print head for high- to ultra-high-resolution printing.
- Ethernet ready for wireless network connectivity.
- Print speeds up to 7.87" (200 mm) per second for fast label production.
- Adjustable gap sensor detects a wide variety of label types.
- Print head automatically adjusts to varying media thickness.
- Optional cutter faceplate for automatic cutting and kitting of printed labels.

TTM430 Standard printer, 556-00430
TTM430SC Printer with cutter, 556-00443
TTM460 Printer with 600 dpi print head, 556-00460

TT4030 Series Thermal Transfer Printers

HellermannTyton's TT4030 Series thermal transfer printers feature an informative display for simple navigation and instructional videos. The built-in caddy allows even the largest label rolls to fit inside.

Features and Benefits

- Premium-quality printer is designed for medium- to heavy-duty industrial applications.
- Ultra-fast print speeds up to 11.8 in (300 mm) per second.
- 300 dpi print head cleanly renders best-in-class high-definition graphics and text on labels, thermo plastics such as heat shrink and TipTags.
- Standard adjustments are made with the on-board tool, minimizing operator downtime.
- Optional premium quality accessories such as a perforator and cutter extend the printer's productivity.

Warranty Policy

HellermannTyton products are warranted to be free from defects in material and workmanship at the time sold by us; but our obligation under this warranty and that of the seller is limited to the replacement of the product, and neither we nor the seller are bound by any other warranty, expressed, implied or statutory. Under no circumstances are we or the seller liable for any loss, damage, expenses or consequential damages of any kind arising out of the use or inability to use these products. All are sold with the understanding that the user will test them in actual use and determine their adaptability for the intended uses.
